

How to find Villa d'Asso on the last 10 kilometers

Your journey to Villa d'Asso is the first part of your „retreat“ or of „taking a distance from every day life“!

It leads you to beautiful remote country side where the GPS often does not work properly...

Therefore please study the route planner and this extra explanation for the last 10 kilometers carefully:

Coming from Florence Airport you can reach Villa d'Asso via two different routes:

Via Autostrada (A1 direction Rome) and Sinalunga or via Superstrada (RA3 direction Siena) and Buonconvento.

Villa d'Asso is situated between the villages San Giovanni d'Asso and Torrenieri on the Via Traversa dei Monti.

> **Coming via Sinalunga (A1)** you will approach Villa d'Asso from „San Giovanni d'Asso“. In this case you find the entrance (an electrical gate) after 7 km on the right side of the road **exactly at km 23/VI.**

> **Coming via Siena (RA3)** you will approach Villa d'Asso from „Torrenieri“. In that case after 3 km you find a „Consortio agrario“ (silos) on your left and then after another 500 m the gate on the left side of the road **exactly at km 23/VI.**

We are very much looking forward to welcoming you!
